File Specs.

Signmaker Solutions use a PC based printing platform, so ultimately the file will be converted to PC by the client or Signmaker Solutions.

- All images to be CMYK
- Convert all fonts to outline
- Spot colours to be saved as PMS colours
- Large format images to be at **360dpi @ 50% actual size**

Supply a colour proof so expectations can be met

COLOUR MATCHING: Whilst every care is taken to match our production print to the artwork & colour swatch you have supplied, colours will vary depending on the substrate used.

PLEASE CONTACT OUR ART DEPT. IF YOU HAVE ANY QUERIES
